#### SUMMARY

Python Developer with 2 years of experience. Passionate about building web applications and learning new technologies. Familiar with FastAPI, PostgreSQL, and modern development practices.

#### CURRENT POSITION

Junior Python Developer  
CodeCraft Studios  
June 2023 - Present

#### EDUCATION

Bachelor's Degree in Information Technology  
Tech Institute, 2022

#### SKILLS

- Python
- FastAPI
- Flask
- PostgreSQL
- MySQL
- JavaScript
- Git
- Docker
- REST APIs
- Postman
- VS Code

#### WORK EXPERIENCE

##### Junior Python Developer | CodeCraft Studios | Jun 2023 - Present

- Developed REST APIs using FastAPI
- Worked with PostgreSQL for data storage
- Implemented CRUD operations for various services
- Wrote basic unit tests using pytest
- Participated in code reviews
- Fixed bugs reported by QA team

##### Python Intern | StartupHub | Jan 2022 - May 2023

- Assisted in developing Flask applications
- Learned about RESTful API design
- Worked with senior developers on various projects
- Documented API endpoints and database schemas
- Basic experience with Docker containers

#### PERSONAL PROJECTS

- Weather API: Built simple weather API using FastAPI
- Blog Application: Created blog using Flask and SQLite
- Todo API: REST API with FastAPI and PostgreSQL

#### LEARNING

- Currently learning React and frontend development
- Studying microservices architecture
- Exploring AWS cloud services
